

To All flyers, fanciers, clubs, feds, assoc Australia wide.

Be advised that RV Vaccine is close to being available!!

The flyers, fanciers, clubs, feds, assoc that have advised the ANRPB of their flyer/fancier numbers and pigeon numbers will get priority as per the DMF donation date list.

This list has been compiled and the details advised to Treidlia - and at this stage bird numbers advice is for about 250,000 pigeons (that will require two doses).

My (David Walker's) guess is that in total the pigeon population in Australia is up 500,000 pigeons.

Flyers fanciers, clubs, feds assoc should contact Treidlia in due course (once Treidlia have APVMA approval), and Treidlia have determined a price for the vaccine by bottle size (see press release for details).

Treidlia will then review the request for orders against the ANRPB DMF list for supply.

Orders for supply outside the DMF list will be determined by Treidlia.

regards

David Walker

Secretary Treasurer ANRPB
