- It is up to individual drivers to organise their time to complete their turn.
- If any nominated driver cannot complete their turn it is up to nominated driver to organise a swap etc.
- If a swap cannot be arranged and someone else has to complete the journey and liberation the nominated driver must pay an additional fee of \$20 per flying member competing in race all of which is payable to the driver/liberator.
- We have paid for 10 races sprint races this year @\$35 a race when we liberate our own birds. We have had 6 on the north and a further 5 scheduled for the south. Each member owes \$35.00 for that extra race.
- When on board with SCF from Lakes Entrance 1 there is a basket fee of \$110.00 for each member.
- When on board with SCF from Lakes Entrance each member must also nominate the number of birds they will send to the SCF races, excluding Tasmania and Mildura, which are both self-funded. That number of birds has to be paid for by each member for 7 races by 30 August 2022 regardless of whether or not you participate in each race (SCF rules) @ \$0.85 a bird. For Example, if I nominate 30 pigeons for the SCF races I must pay \$110.00 basket fee and for 30 birds @ \$0.85 cents each for 7 races which is \$25.50 x 7 = \$178.50 with a grand total of \$288.50. Baskets can be shared with a bird limit of 25 race birds for each basket.
